

Elegance track light

ELEG-25W-2700K-W-W-36

VOLTRON® ELEGANCE 3-phase TRACK light is high subtlety and quality in one design. The luminaire is built according to the circular principle: fast replacement of power supply and light source. Available in 3 powers namely 10W, 25W or 35W and 2 beam angles namely 36° or 60°. Casing in ALU black or white (AkzoNobel coating) met highly efficient thin cooling fin structure for fast cooling of the CITIZEN COB. Due to its flexible adjustment (360°/90°), it can be used for both ceiling and wall mounting. The module : White - 25W - 2008Lm - IP20 - 2700K - lens 36° - L80 >40.000h - CRI >90 - Including FlickerFree dimmable driver - 3 years warranty. Optionally provided with honeycomb (avoid direct view) and/or golden inner ring (replaceable)

Specification text*

Professional TRACK LED fixture for mounting on 3-phase Nordic Global Pro rail or similar. White lacquered ALU housing (AkzoNobel brand lacquer) highly efficient thin cooling fin structure for accelerated cooling of the LEDs. The light sources are replaceable. For every light source there is a lens that is also replaceable. Luminaire is always including driver. The driver is flicker-free, which increases lighting comfort. Inner ring can be replaced with a gold color as an option. An optional honeycomb filter can be installed for a softer light emission. Light is 360 ° horizontally adjustable (comes with a measuring ring with indications) and 90 ° vertically adjustable (each click is 15 °) with the unique click system. Lichtbron is a COB with a light output of 2008lm at 25W. Light color 2700K. IP20 class. Extremely suitable for lighting stores, showrooms, offices, homes. With a CRI value > 90. Equipped with photo metric report and IES file for elaboration in DIALux.
